TROLLEY

Service between Weston and
Pittsburg at An Early Date
is Not a Dream.

MORGANTOWN, Dec. 5 — The charter of the Morgantown and Fairmont Railway Company has been filed for record in the clerk's office of the county court. The capital stock is placed at \$5,000 and the incorporators are William H. Brank, Simon L. Wildman, William E. Glascock, S. Fuller Glascock, John G. Samsel, John L. Hatfield, Edward G. Donley, R. E. Arnett and Harry E. Brookover. S. Fuller Glascock has been appointed statutory attorney and the certificate has been recorded. The incorporators of the company state that it is the intention of the company to build a trolley line from this city to Fairmont. The survey and locations have been made and the profiles have been filed in the clerk's office.

The men behind the enterprise state that this is a move to connect northern West Virginia with Pittsburg by trolley. It now takes only thirty-one miles of road to make the connection complete from Weston north to Pittsburg. The distance from here to Riverview to connect with the Fairmont and Clarksburg line is sixteen miles and the distance from this city to Martin to connect with the West Penn. line is only fifteen miles and when these two connections are made the line will then be complete connecting Weston, Clarksburg, Fairmont, Mannington, and all the intermediate points directly with Pittsburg.

The Morgantown Interurban line, which is completed to Point Marion, will complete most of the gap between here and Martin, so that the prospect is now good for the completion of the connection in the near future. Should the bond election in Union district carry it would seem that this important connection of all trolley lines in this section of the state will be made next summer.

M. Bourseni, who was regarded by the French as the first to develop the idea of the telephone, died recently a poor man.
